

ASHWATH REDDY K

AWS DevOps Engineer- 4Yrs | AWS | Terraform | Jenkins | Ansible | Docker | Kubernetes |GitLab

Whitefield Bangalore | +91-8147266605 | ashwathreddy888@gmail.com | www.linkedin.com/in/ashwath-reddy-k

Professional Summary

AWS DevOps Engineer with 4 years of experience in designing, automating, and optimizing cloud infrastructure and CI/CD pipelines. Specialized in managing scalable solutions on AWS using services like EC2, S3, IAM, VPC, Lambda, and CloudWatch. Proficient in Jenkins for continuous integration and delivery, Ansible for configuration management, and Docker for containerization. Strong background in Git-based version control and scripting for task automation. Experienced in supporting 24/7 production environments, incident response, and implementing ITIL-based operational processes. Proven ability to collaborate with development and operations teams to deliver secure, reliable, and cost-effective DevOps solutions in the cloud. Available for immediate joining.

Professional Experience

AWS DevOps Engineer | TATA Consultancy Services (TCS), Bangalore

February 2022 – October 2025

TATA play fiber Project

- Automated provisioning of AWS infrastructure using Terraform and Ansible, reducing manual setup errors by 90% and improving deployment speed by 40%.
- Designed and managed CI/CD pipelines in Jenkins, integrated with Git, GitHub, SonarQube, and Maven to streamline Java application deployments.
- Containerized applications with Docker, deployed on Kubernetes clusters with auto-scaling, improving system uptime to 99.9%.
- Developed python script for Lambda to check stale resources and automate routine system backups enhancing disaster recovery capabilities.
- Monitored infrastructure and application performance using AWS CloudWatch, Instana, and Grafana reducing incident response time by 30%.
- Administered AWS services including EC2, IAM, S3, RDS, VPC, Lambda for secure and scalable infrastructure.
- Handled SLA based Incident management using the OTRS ticketing system and ensured timely resolution.
- Documented infrastructure processes and collaborated with release teams to streamline deployments.

AWS Engineer | Deduce Technology, Bangalore

August 2021 – February 2022

Aviva Project

- Providing Support to customer based on Amazon web services. Working on CI/CD pipelines using Jenkins for continuous integration and continuous deployment.
- Created branches and managed the source code for various applications in GIT, maven and Jenkins
- Creating the automated build and deployment process for application re- engineering setup for better user experience and leading up to building a continuous integration system for all our products.
- Experience in AWS resources like EC2, S3, RDS, EBS, ELB, Auto Scaling group, VPC, IAM, Route S3 and cloud watch.
- Utilized cloud watch to monitor resources such as EC2, CPU memory, Amazon RDS DB Service's, EBS volumes to set alarms for notifications or automated actions and to monitor logs for a better understanding and operations of the system.
- Managing AWS instances via monitoring tool and action the alerts accordingly.
- Managed Multiple AWS accounts with multiple VPC's for both production and non-production.
- Configured and managed VPC with subnet, security groups, NACL etc.
- Configured and managing Load balancer, configured and managing S3 storage.

- Created AMI images of the critical EC2 instances as backup using GUI.
 - Utilized Terraform (Iac) for provisioning AWS resources and configured them using Ansible.
 - Implemented proactive monitoring and alerting using Prometheus and Grafana, reducing system downtime.
-

Technical Skills

- **Cloud Platforms:** AWS (EC2, S3, IAM, VPC, RDS, ECR, EKS, Route53, Lambda, CloudWatch)
 - **CI/CD:** Jenkins, Git, GitHub, Maven, SonarQube, Jira
 - **Automation:** Ansible, Ansible Tower, Terraform (IaC), Python and shell Scripting.
 - **Containers & Orchestration:** Docker (ECR) Kubernetes (EKS)
 - **Monitoring:** Instana, Prometheus, Grafana, CloudWatch
 - **Development & Release:** Agile, CI/CD, SDLC, Blue/Green, Canary
-

Education

Bachelor of Engineering (Civil),

Degree obtained JUN-2020

Reva University Bangalore CGPA: 7.2
